

Central Contra Costa Sanitary District (CCCSD) Grayson Creek Trunk Line Project – Update June 24, 2016

The CCCSD Grayson Creek Trunk Line Project began this week on Westover Drive (between Maureen Lane and Westover Court) at the Contra Costa Canal Trail crossing. Construction activities include excavation, installing the new sewer pipe under the canal via the boring method, and backfill. Work at this location is expected to be completed in the middle of July.

A one-way traffic control has been established for the westbound traffic along Westover Drive at the work zone, while eastbound vehicles along Westover Drive are being detoured along Lockwood Lane and Maureen Lane to avoid the construction work zone. A flagger will assist trail users through the construction area.

Once work at this location is complete, the CCCSD contractor will begin the installation of the pipe on Pleasant Hill Road (between Westover Drive and Mercury Way) at the Grayson Creek crossing.
